Clipboard Health

Dear Hiring Manager,

I am excited to apply for the Software Engineer, Platform position at Clipboard Health. Your mission to lift people up the socioeconomic ladder by connecting healthcare professionals with on-demand opportunities resonates deeply with me. I am inspired by the opportunity to help scale your platform and empower both professionals and facilities through robust, secure, and automated infrastructure.

Why I'm Excited About Clipboard Health

Clipboard Health's commitment to improving lives through technology and its rapid growth in the healthcare marketplace aligns perfectly with my passion for building scalable, reliable platforms that drive real-world impact. The chance to work in a globally distributed, high-ownership team to support millions of shifts annually is especially motivating.

Relevant Experience & Impact

Platform Engineering & Cloud Infrastructure - Over 20 years of experience designing, building, and maintaining scalable infrastructure using Terraform, AWS, and automation tools for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Deep hands-on expertise with AWS services (EC2, ECS, RDS, S3, CloudWatch), infrastructure as code, and CI/CD pipelines - Built reusable infrastructure modules and internal tooling to empower product engineering teams and improve development velocity

Backend Development & Automation - Developed and supported backend services using TypeScript, Node.js, and modern frameworks, interfacing with MongoDB and Postgres for performance and reliability - Owned the full lifecycle of platform features, from design and implementation to monitoring and production support - Strong DevOps mindset, driving automation and platform-level improvements to support high-growth, agile teams

Collaboration & Communication - Worked in globally distributed, 100% remote teams with asynchronous workflows and high ownership culture - Proac-

tive communicator, collaborating with users and teammates to understand pain points and drive solutions

Why I'm a Strong Fit for Clipboard Health

My experience in platform engineering, cloud infrastructure, and backend development, combined with my passion for automation and supporting high-growth, remote teams, positions me to make a significant impact at Clipboard Health. I thrive in fast-paced, mission-driven environments and am eager to help Clipboard Health continue to scale and serve more professionals and workplaces.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Clipboard Health's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
