Convoso

Dear Hiring Manager,

I am excited to apply for the Director of Engineering position at Convoso. Your mission to build an AI-powered contact center platform that drives customer growth while maintaining regulatory compliance resonates deeply with me. I am inspired by the opportunity to lead a talented engineering team in shaping the future of your SaaS platform and delivering exceptional value to customers.

Why I'm Excited About Convoso

Convoso's commitment to innovation, team integrity, and continuous growth aligns perfectly with my passion for building scalable, high-performing software solutions. The chance to work with a globally distributed team on cutting-edge AI and automation technology, while fostering a culture of technical excellence and collaboration, is especially motivating.

Relevant Experience & Impact

SaaS Leadership & Technical Management - Over 20 years of experience in SaaS environments as a Senior Developer and hands-on Tech Lead, building scalable, high-quality, high-availability applications (Barclays, McKinsey, Biophy, Yotascare, Boomi, etc.) - 5+ years in software development team leadership positions, ensuring teams deliver on time, budget, and quality - Extensive experience managing complex software projects from ideation to post-release support, understanding how business priorities affect development pipelines

Cross-Functional Collaboration & Process Excellence - Led engineering teams in collaboration with QA, DevOps, Product, and Customer Success departments - Created and implemented KPIs that define measurable success for development teams - Established transparent, flexible, and predictable development processes using AGILE frameworks (SCRUM and Kanban) - Managed distributed teams across different continents and time zones, ensuring effective communication and coordination

Technical Architecture & Platform Reliability - Led software and infrastructure architecture planning, focusing on tech debt minimization and security solutions - Served as first responder for emergencies, outages, and highly sensitive

platform issues - Performed root-cause analysis and implemented recommendations for continuous improvement - Experience with PHP, MySQL, JavaScript frameworks, and additional languages (Python, Node.js)

Team Development & Scaling - Scouted, interviewed, tested, onboarded, and coached developers to grow high-performing teams - Continuously assessed team performance and implemented individual and group KPIs - Provided data-driven recommendations for headcount, tooling, and other investments to meet business objectives

Why I'm a Strong Fit for Convoso

My experience leading SaaS engineering teams, combined with my technical depth in scalable applications and my passion for innovation and collaboration, positions me to make a significant impact at Convoso. I thrive in globally distributed environments and am eager to help Convoso continue its growth and deliver exceptional value to customers.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Convoso's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
