Discord

Dear Hiring Manager,

I am excited to apply for the Staff Engineer position in the Consumer Revenue org at Discord. Your mission to scale technology and revenue-driving products that enhance the gaming experience for millions of users resonates deeply with me. I am inspired by the opportunity to help shape the technical roadmap, collaborate across teams, and drive initiatives that directly support Discord's vision of multi-billion dollar revenue growth.

Why I'm Excited About Discord

Discord's unique role at the intersection of gaming, community, and technology aligns perfectly with my passion for building large-scale, real-time platforms that bring people together. The chance to work with a talented, cross-functional team to accelerate growth and unlock new monetization opportunities is especially motivating.

Relevant Experience & Impact

Large-Scale Product Engineering & Multi-Platform Development -

Over 20 years of experience as a software engineer, leading large initiatives from inception to launch across web, mobile, and backend platforms (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Deep hands-on expertise with React, TypeScript, Python, and backend systems, with experience building and shipping product features at scale and in real-time applications - Strong understanding of development frameworks and fundamentals across web, Android, and iOS platforms

Technical Leadership & Cross-Functional Collaboration -

Led and collaborated with staff engineers, product managers, designers, analysts, and marketing teams to ensure technical alignment and deliver high-impact initiatives - Advised leadership on essential technical considerations, engineering excellence, and key initiatives to drive business growth - Focused on accelerating growth of existing revenue streams while laying the foundation for new monetization opportunities

Holistic Problem Solving & Product Sense - Take a first-principles approach to problem solving, learning from mistakes and working through obstacles with the team - Strong sense for product and design, collaborating closely with cross-functional peers to create exceptional user experiences - Committed to continuous improvement, operational excellence, and delivering extraordinary results

Why I'm a Strong Fit for Discord

My experience in large-scale product engineering, multi-platform development, and technical leadership, combined with my passion for gaming and community, positions me to make a significant impact at Discord. I thrive in fast-paced, collaborative environments and am eager to help Discord scale its platform and products to drive revenue growth and deepen user engagement.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Discord's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
