Glean

Dear Hiring Manager,

I am excited to apply for the Solutions Engineer, Central position at Glean. Your mission to redefine how employees access and leverage knowledge through AI-powered search and collaboration tools resonates deeply with me. I am inspired by the opportunity to partner with Account Executives and enterprise customers to deliver impactful solutions that drive productivity and business value.

Why I'm Excited About Glean

Glean's commitment to simplifying knowledge discovery and empowering teams with cutting-edge AI technology aligns perfectly with my passion for building and delivering innovative SaaS solutions. The chance to work with a talented team to help customers overcome information fragmentation and unlock their collective intelligence is especially motivating.

Relevant Experience & Impact

SaaS Solutions Engineering & Technical Pre-Sales - Over 20 years of experience in sales engineering, solution consulting, and technical pre-sales roles for enterprise SaaS organizations (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Partnered with Account Executives to navigate complex, multi-stakeholder deal cycles, run technical POCs, and deliver custom demos tailored to customer industries and business needs - Led technical discovery calls, managed API-based integrations, and configured environments to showcase product value

Security, API Integrations & Customer Engagement - Led security-based conversations to address customer concerns and ensure confidence in platform security posture - Proficient in Python and Java, with hands-on experience configuring, monitoring, and maintaining API-based integrations in cloud environments (AWS, GCP, Azure) - Developed ROI and business justification reports and presentations for enterprise customers

Consultative Approach & Cross-Functional Collaboration - Consultative problem solver with a track record of overcoming technical and security objections

to drive successful outcomes - Worked cross-functionally with product and engineering teams to deliver customer requests and serve as a voice of the customer - Excellent written and verbal communication skills, with a strong ability to build relationships and deliver value in fast-paced, team environments

Why I'm a Strong Fit for Glean

My experience in SaaS solutions engineering, technical pre-sales, and customer engagement, combined with my technical depth in API integrations and security, positions me to make a significant impact at Glean. I thrive in dynamic, high-growth environments and am eager to help Glean's customers realize the full potential of your Work AI platform.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Glean's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
