HubSpot

Dear Hiring Manager,

I am excited to apply for the Backend Engineering Lead position in the Omnichannel Product Group at HubSpot. Your mission to empower front-office teams through an AI-first omnichannel platform resonates deeply with me. I am inspired by the opportunity to lead a team building reliable, scalable voice platform capabilities that support thousands of reps and millions of conversations.

Why I'm Excited About HubSpot

HubSpot's commitment to simplifying complexity and improving rep productivity through seamless integration aligns perfectly with my passion for building robust, scalable platforms that solve real business problems. The chance to work at the intersection of infrastructure, API integration, and business impact, while mentoring and growing engineering teams, is especially motivating.

Relevant Experience & Impact

Voice Platforms & Distributed Systems - Over 20 years of experience building and managing distributed systems with real-time and high-availability constraints (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Led teams that design and operate scalable communication platforms, API integrations, and real-time data processing systems - Experience with telecom fundamentals and abstracting complex technical challenges for product teams

Technical Leadership & Team Building - Led small cross-functional teams of engineers, product managers, designers, and analysts, fostering inclusive environments and strong collaboration - Served as a player-coach, actively coding while mentoring and coaching technical team leads - Created and fostered diverse teams with inclusive cultures, providing mentoring, coaching, and feedback to help engineers grow

Cross-Functional Collaboration & Business Impact - Collaborated with Go-to-Market teams, internal product teams, and business process automation to deliver value iteratively - Built trusted relationships across engineering, product,

design, research, marketing, and sales organizations - Demonstrated strong user focus, understanding user needs and empathizing with the challenges they face

Product Vision & Technical Excellence - Worked effectively across engineering and product organizations to cultivate strong product vision and ensure mission alignment - Implemented ideas to push teams to improve technically while maintaining focus on solving customer problems - Balanced hands-on coding with strategic technical vision and product direction

Why I'm a Strong Fit for HubSpot

My experience leading distributed systems teams, combined with my technical depth in real-time platforms and my passion for mentoring and collaboration, positions me to make a significant impact in HubSpot's Omnichannel Product Group. I thrive in environments that value both technical excellence and business impact, and am eager to help HubSpot scale its voice platform to support growth and improve rep productivity.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with HubSpot's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
