Iterable

[Company Address]

[City, State ZIP]

Dear Hiring Manager,

I am excited to apply for the Senior Director, Product position at Iterable. With over two decades of experience leading cross-functional teams and delivering innovative, data-driven SaaS solutions, I am inspired by Iterable's mission to empower brands with AI-powered customer engagement at scale. I am eager to contribute my expertise in product strategy, AI/ML, and organizational leadership to help shape the future of your platform and drive measurable business impact for your customers.

Why I'm Excited About Iterable

Iterable's focus on hyper-personalization, real-time decisioning, and cross-channel engagement aligns perfectly with my background in building AI-powered platforms and customer-centric products. Your commitment to innovation, growth mindset, and inclusion resonates deeply with my own values and leadership style.

Relevant Experience & Impact

Strategic Product & Technical Leadership - Led the architecture and delivery of large-scale SaaS and cloud-native platforms for enterprise clients at Biophy, McKinsey, Yotascale, and Barclays - Defined and executed multi-year product and technology roadmaps, driving cross-functional alignment and measurable business outcomes - Built and scaled high-performing teams, mentoring product and engineering leaders to foster cultures of innovation, ownership, and accountability

AI/ML, Data, and Personalization - Architected and delivered genAI, RAG, and multi-agent systems for real-time data pipeline generation, customer engagement, and automation - Implemented AI-powered personalization and automation solutions, leveraging vector databases (ChromaDB, Milvus), OpenAI APIs, and advanced analytics - Designed and launched platforms that translate

complex data assets into actionable insights, driving customer value and business growth

SaaS, Customer Engagement, and MarTech - Extensive experience building and scaling SaaS products for enterprise and SMB clients, with a focus on reliability, scalability, and security - Developed customer engagement and automation platforms that empower organizations to deliver personalized, cross-channel experiences - Deep understanding of the challenges and opportunities in MarTech, data-driven marketing, and customer lifecycle management

Cross-Functional & Executive Collaboration - Partnered with Product, Engineering, Data Science, Design, and Go-to-Market teams to deliver on ambitious goals and ensure unified product vision - Presented product strategy, progress, and trade-offs to senior leadership and executive stakeholders, securing buy-in and driving consensus

Innovation & Thought Leadership - Early adopter and implementer of cutting-edge technologies, including AI/ML, cloud-native architectures, and data-driven automation - Contributed to organizational leadership culture through mentorship, systems thinking, and a relentless focus on customer value

Why I'm a Strong Fit for Iterable

My experience leading product and engineering organizations, combined with my technical depth in AI/ML and SaaS, positions me to drive Iterable's product strategy and execution. I thrive in fast-paced, high-growth environments and am passionate about building products that deliver exceptional customer value and business impact. I am excited about the opportunity to help Iterable continue its leadership in customer engagement and marketing automation.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Iterable's goals and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
