Dear Hiring Manager,

I am excited to apply for the Staff Software Engineer, Fullstack position at Oscar. Your mission to build a health insurance company centered on technology and member experience resonates deeply with me. I am inspired by the opportunity to help make healthcare more accessible, reliable, and user-friendly through innovative engineering and collaborative problem-solving.

Why I'm Excited About Oscar

Oscar's commitment to building a full stack technology platform that simplifies healthcare for members and providers aligns perfectly with my passion for creating impactful, user-centric products. I am eager to contribute my expertise in fullstack engineering, technical leadership, and cross-team collaboration to help Oscar continue to deliver best-in-class solutions for your members.

Relevant Experience & Impact

Fullstack Engineering & Technical Leadership - Over 20 years of experience designing, building, and maintaining reliable, maintainable applications and infrastructure for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Led the planning, execution, and release of complex technical projects across multiple teams, including large-scale features and infrastructure initiatives - Deep hands-on experience with modern frontend frameworks (React, TypeScript) and robust backend systems (Node.js, Python, Java) - Built and optimized RESTful APIs, GraphQL endpoints, and integrated frontend and backend systems for seamless user experiences

Mentorship & Cross-Team Collaboration - Served as a subject matter expert and technical lead, mentoring engineers and guiding teams to improve technology and apply best practices - Fostered a culture of collaboration, proactively identifying and mitigating risks in cross-team projects to ensure timely

delivery - Worked closely with product managers, designers, and partners to solve challenging problems and deliver high-impact solutions

Operational Excellence & Reliability - Established and enforced standards for writing stable, correct, and maintainable code - Guided the development of Service-Level Objectives (SLOs) and built software to minimize maintenance effort and business impact during failures - Actively identified and reduced failure domains, driving outcomes for organization-wide projects

Why I'm a Strong Fit for Oscar

My experience leading fullstack engineering teams, combined with my technical depth and passion for improving user experiences, positions me to make a significant impact at Oscar. I thrive in collaborative, mission-driven environments and am eager to help Oscar continue to innovate and deliver exceptional healthcare solutions.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Oscar's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
