[City, State ZIP]

Dear Hiring Manager,

I am excited to apply for the Director of Solutions Engineering position at Sourcegraph. Your mission to make coding accessible to everyone and build tools that define the next era of enterprise software development resonates deeply with me. I am inspired by the opportunity to lead a high-impact team that sits at the intersection of Sales, Product, and Technical Success, guiding prospects and customers through complex technical evaluations.

## Why I'm Excited About Sourcegraph

Sourcegraph's commitment to technical excellence, customer-centric thinking, and cross-functional collaboration aligns perfectly with my passion for building high-performing teams that drive business growth. The chance to elevate the Solutions Engineering function and shape how developers interact with code at leading companies is especially motivating.

## Relevant Experience & Impact

**Technical Sales Leadership & Solutions Engineering** - Over 20 years of experience in technical leadership roles, managing high-performing teams in complex, enterprise-focused environments (Barclays, McKinsey, Biophy, Yotascalc, Boomi, etc.) - Led teams that serve as trusted advisors to prospects and customers, providing deep technical expertise and navigating complex enterprise environments - Experience driving technical wins and consistently delivering results in pipeline reviews and forecasting processes

**Cross-Functional Collaboration & Customer Success** - Partnered closely with Sales, Product, Engineering, and Customer Success teams to align technical solutions with business objectives - Built strong relationships with stakeholders across large, strategic accounts and drove cross-functional initiatives - Collaborated with Product and Engineering teams on critical feedback loops from the field to improve product offerings

**Team Development & Process Improvement** - Mentored and coached technical teams, fostering a culture of continuous improvement and career development - Implemented scalable best practices across discovery, demos, POCs, and technical evaluations - Established performance metrics, reporting dashboards, and enablement programs to drive team effectiveness

**Enterprise B2B SaaS Expertise** - Deep understanding of enterprise software development, code search, and developer tooling - Experience with complex technical sales cycles, RFPs, and enterprise customer requirements - Proven track record of building repeatable, effective processes that scale with business growth

## **Why I'm a Strong Fit for Sourcegraph**

My experience leading technical teams in enterprise environments, combined with my passion for customer success and cross-functional collaboration, positions me to make a significant impact as Sourcegraph's Director of Solutions Engineering. I thrive in high-agency, globally distributed environments and am eager to help Sourcegraph scale its go-to-market motion and drive growth.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Sourcegraph's mission and how I can contribute to your continued success.

Sincerely,

**Yongjun Rong**
