Temporal

Dear Hiring Manager,

I am excited to apply for the Staff Solutions Architect: Growth - West position at Temporal. Your mission to simplify application development and improve reliability through open source innovation resonates deeply with me. I am inspired by the opportunity to serve as a primary technical leader, guiding customers and prospects in leveraging Temporal's platform to accelerate their business and developer success.

Why I'm Excited About Temporal

Temporal's commitment to empowering developer communities, building world-class open-source software, and delivering a commercial SaaS platform aligns perfectly with my passion for distributed systems, developer advocacy, and customer success. The chance to work with a talented, cross-functional team to help customers realize the technical and business value of Temporal is especially motivating.

Relevant Experience & Impact

Distributed Systems & Cloud Expertise - Over 20 years of experience architecting, building, and operating distributed systems and cloud-native applications for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Deep hands-on experience with major cloud providers (AWS, GCP, Azure) and commonly used application development and production services - Proficient in building application prototypes and providing design, development, build, and deployment guidance in Java, Python, TypeScript, and Golang

Technical Pre-Sales & Customer Engagement - Served as a trusted technical advisor to prospects and customers, educating them on the benefits and limitations of new platforms and technologies - Partnered closely with Account Executives to develop and execute comprehensive account plans, scoping and sizing opportunities, and offering guidance on technical fit and challenges - Managed and nurtured relationships with technical decision-makers, ensuring successful adoption and expansion of new technologies in production environments

Open Source & Developer Advocacy - Contributed to and led open-source initiatives, engaging with developer communities to drive adoption and provide expert guidance - Presented, whiteboarded, and wrote technical content to communicate complex concepts to diverse audiences

Operational Excellence & Architecture Guidance - Provided insightful advice on architectural topics, including application patterns, platform architectures, and operational considerations such as security, reliability, performance, and cost management - Fostered environments within customer engineering organizations to increase adoption and expansion of new platforms

Why I'm a Strong Fit for Temporal

My experience in distributed systems, technical pre-sales, and customer engagement, combined with my passion for open source and developer advocacy, positions me to make a significant impact as a Staff Solutions Architect at Temporal. I thrive in environments that value technical excellence, customer success, and community building, and am eager to help Temporal's customers unlock the full potential of your platform.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Temporal's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
