Dear Hiring Manager,

I am excited to apply for the Engineering Manager, Cloud Infrastructure position at Valon. Your mission to empower every homeowner and transform the mortgage servicing industry through technology resonates deeply with me. I am inspired by the opportunity to lead and grow a high-impact team responsible for building the scalable, secure, and reliable infrastructure that powers Valon's innovative platform.

Why I'm Excited About Valon

Valon's commitment to modernizing a heavily regulated and complex industry aligns perfectly with my passion for architecting robust, high-leverage systems that drive business growth and operational excellence. The chance to work with a talented, high-agency engineering team to scale infrastructure and enable rapid product iteration is especially motivating.

Relevant Experience & Impact

Cloud/Platform Engineering & Technical Leadership - Over 20 years of experience designing, building, and scaling cloud infrastructure and platform tooling for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Led teams responsible for core platform initiatives, including compute, databases, storage, and networking, with a focus on scalability, reliability, and security - Deep hands-on experience with AWS, Kubernetes, Docker, and distributed systems, as well as adopting new data stores and scaling batch processing systems

Mentorship, Team Building & Cross-Functional Collaboration - Managed and mentored high-performing engineering teams, fostering a culture of feedback, continuous development, and high accountability - Collaborated closely with engineering, product, and operations stakeholders to define and deliver cross-cutting infrastructure projects - Established and evolved engineering processes

to drive continuous improvement, velocity, and quality

Product Mindset & Strategic Execution - Operated with a strong product management mindset, translating business problems into scalable technical solutions and balancing near-term priorities with long-term vision - Guided architecture decisions, wrote code when needed, and maintained deep system knowledge to advocate for technical excellence and pragmatic decision-making

Why I'm a Strong Fit for Valon

My experience leading cloud and platform engineering teams, combined with my technical depth in distributed systems and my passion for empowering teams, positions me to make a significant impact at Valon. I thrive in fast-paced, high-growth environments and am eager to help Valon scale its infrastructure to support the next generation of homeownership solutions.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Valon's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
