Vercel

Dear Hiring Manager,

I am excited to apply for the Software Engineer, Account Lifecycle and Access Management (IAM) position at Vercel. Your mission to empower developers to build, scale, and secure the AI-native web resonates deeply with me. I am inspired by the opportunity to design, build, and maintain scalable, high-performance IAM systems that ensure security, reliability, and seamless user experiences for Vercel's customers.

Why I'm Excited About Vercel

Vercel's commitment to innovation, developer experience, and building the future of the web aligns perfectly with my passion for solving complex challenges and delivering secure, scalable solutions. The chance to work with a talented team on industry-leading products like Next.js and v0, while shaping the future of IAM, is especially motivating.

Relevant Experience & Impact

IAM, Security, and Cloud-Native Engineering - Over 20 years of experience designing, building, and operating secure, scalable systems for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - 3+ years of hands-on experience with IAM architectures, implementing cloud computing solutions on AWS, and developing enterprise-grade IAM solutions - Deep proficiency in TypeScript/JavaScript, Node.js, REST APIs, and JSON, with practical experience developing and improving applications in Node.js - Strong knowledge of security architecture, LDAP, Active Directory, SAML, SSO, OAuth2, OpenID Connect, and web protocols (XML, SOAP, JSON, REST) - Experience designing and implementing access control models (RBAC, ABAC, ReBAC) and identity lifecycle management solutions using SCIM

Infrastructure as Code & Distributed Systems - Hands-on experience with Terraform, AWS CloudFormation, and Kubernetes to deliver scalable, high-availability applications - Built and maintained high-quality enterprise software, participating in on-call rotations to ensure reliability and operational excellence

Collaboration & Communication - Collaborated with cross-functional teams to deliver large-scale projects with cross-team dependencies, ensuring solutions meet industry standards and customer expectations - Excellent problem-solving abilities and effective communication skills, especially when working with diverse teams

Why I'm a Strong Fit for Vercel

My experience in IAM, AWS, TypeScript/Node.js, and security protocols, combined with my passion for building secure, scalable systems and collaborating across teams, positions me to make a significant impact at Vercel. I thrive in fast-paced, innovative environments and am eager to help Vercel deliver secure, reliable, and high-performance IAM solutions for the AI-native web.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Vercel's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
