[Company Address]

[City, State ZIP]

Dear Hiring Manager,

I am excited to apply for the Principal Software Engineer position at Weedmaps. Your mission to power a transparent and inclusive global cannabis economy through innovative technology resonates deeply with me. I am inspired by the opportunity to help shape the vision and architecture of Weedmaps's next-generation backend infrastructure and to build products that enable the cannabis industry to flourish.

Why I'm Excited About Weedmaps

Weedmaps's commitment to building a world-class marketplace and robust SaaS solutions for the cannabis supply chain aligns perfectly with my passion for architecting scalable, reliable, and secure platforms that solve complex, high-impact problems. The chance to work on a platform that supports compliance, transparency, and growth in a rapidly evolving industry is especially motivating.

Relevant Experience & Impact

Backend Architecture & SaaS Leadership - Over 20 years of experience designing, building, and scaling backend systems and SaaS platforms for enterprise and SMB clients (Barclays, McKinsey, Biophy, Yotascale, Boomi, etc.) - Led the architecture and delivery of service-oriented, API-centric platforms using Node.js, Express.js, and other modern frameworks - Developed secure, scalable, and modular architectures that support rapid product development and seamless integration across business lines - Built long-term technical strategies that align with business goals and enable growth into new and existing markets

Technical Leadership & Cross-Team Collaboration - Partnered closely with engineers and leaders across disciplines to gather information, align technical direction, and drive strategic decisions - Mentored and coached engineers, fostering a culture of flawless execution, technical rigor, and continuous learning

- Acted as an ambassador for organizations at technology conferences and events, communicating technical vision and roadblocks to executive leadership

Product Development & Compliance - Supported the application lifecycle from concept to release, following best practices for development, documentation, testing, and deployment - Experience working in e-commerce and B2B SaaS, building applications that engage consumers and foster business growth - Exposure to cloud-based technologies, integrations, and modern mobile architectures

Why I'm a Strong Fit for Weedmaps

My experience leading the design and evolution of backend infrastructure, combined with my technical depth in SaaS and service-oriented architecture, positions me to make a significant impact at Weedmaps. I thrive in collaborative, high-growth environments and am eager to help Weedmaps deliver secure, scalable, and innovative solutions that empower the cannabis industry.

Thank you for considering my application. I look forward to the opportunity to discuss how my background and vision align with Weedmaps's mission and how I can contribute to your continued success.

Sincerely,

Yongjun Rong
